# 1. The Basics

Before we get in to our plan. It's important that you understand a few basic concepts about us:

Principle	Defined
<b>Organic Search Solutions</b>	Our SEO solutions range from Technical Audits, Training, Keyword Research to full Onsite Content Creation. Our teams can consult you on any of your search oriented goals and provide you with the best solutions to bring success to any project we are working on.
<b>Truly Organic Links</b>	We build links that are earned based on the quality of your content and the value it provides to audiences on the web. This means no paid links and no PBN's but it also means you need to have content worthy of earning links.
<b>Transparency</b>	Every campaign is led by a project manager who will have multiple calls each month with you discuss progress and will provide a reporting dashboard that will show results and provide updates
<b>Custom Strategy</b>	Our campaigns are custom tailored to accomplish the goals of your campaign. This means building out white hat strategies that strategically target your unique goals.
<b>True Partnership</b>	We believe that success is contingent upon clear communication and collaboration. SEO isn't done in a silo it's meant to dovetail with all marketing efforts. We're not a vendor that builds links we are partners in your organic search success.
<b>Proudly Boise</b>	Our team is based in Boise, ID. All of our work comes from the USA.

## 2. What we do works.

This is a campaign that we worked on for a client in the online mattress industry from October 2017 to September 2018. They approached us to help them become a bigger player in an industry dominated by much bigger competition. We built out a campaign that would focus on building links to resources on their site that provide good opportunity for traffic growth. The approach worked, over the next 12 months **we helped the client increase their traffic by over 5x!**

**Check out our detailed case studies!**

## 4. Recommendations

**1. Unlinked Mentions:** This tactic involves our team scanning the web to find places where your brand has been mentioned but not linked to we will then reach out to the publishers and suggest that they link where your brand has been mentioned.

**2. Competitor Backlinking:** Our team has compiled a list of over 3,000 sites where 3 or more of your competitors have been linked but Advantage is not. Unfortunately, there are many where Advantage doesn't service the locale so that will restrict the list a bit but this list will provide our team.

**3. Community Based Resource Links:** Our team can find communities that are relevant to your services and you provide special service to. For example you have a page specifically dedicated to LGBTQ audiences that provide a discount to those individuals: <https://www.advantage.com/landing/gay-travel/>

We can pitch this page to pages across the web that provide resources to the LGBTQ community.

**4. Local Link Building:** We can help make sure that you are being linked to on Local blogs and websites including local business directories. While these are not the most difficult to acquire your competitors have backlink profiles largely

comprised of these and they are quite effective for location specific searches. Any links acquired with this tactic would be 2 links to count as 1 link from another tactic.

**5. Authoritative Resource Guide:** We can create a long-form piece of content that will enable your site to earn high quality resource links from audiences that are both relevant to your services and that have many resource pages dedicated to them. An example of this piece is one we built out a university client of ours: <https://online.maryville.edu/disabilities-guide/>

Using this guide we were able to help the client earn 100's of links including links from .edu and .gov sources. Here's a few examples:

<https://ced.hsc.wvu.edu/resources/>

<https://ddc.ohio.gov/Resource-Library/Links-to-Resources>
